

DICKY LATARE TRICAESAR SINABANG

081376554715 | dickysinabang@gmail.com | www.linkedin.com/in/dickylatare766
Bandung, Indonesia

I graduated from Telkom University with a Bachelor's Degree in Information Technology (GPA: 3.53). During college, I tried to be active in academic and non-academic activities to enhance my self-development in personal knowledge and skills. I enjoyed working and learning about Full-Stack Development, Mobile App Development, IoT, and Machine Learning.

Work Experiences

Karya Multi Solution Indonesia - **Bogor** Jul 2025 - Aug 2025

IT Development Staff

- Contributed to a Smart Building IoT monitoring project, integrating sensors with microcontrollers.
- Placed and configured sensors across designated rooms for real-time monitoring.
- Built a real-time sensor-data dashboard, both front-end and back-end development.
- Gained practical experience in IoT integration, dashboard development, and database management.

MQFM Bandung - **Bandung** Sep 2025 - Feb 2026

Backend Developer

- Developed backend server-side logic for a Flutter-based mobile application built for Radio MQFM's digital platform.
- Managed database structure and data flow to support core application features and admin dashboard functionality.
- Implemented basic SEO optimization on the admin dashboard to improve content visibility and reach.
- Supported testing, evaluation, and improvement of application features.

Education Level

Telkom University - **Bandung, Indonesia** Sep 2022 - Nov 2026 (Expected)

Bachelor of Information Technology, 3.53/4.00

- Developed a deep learning based classification model to improve the accuracy of IoT based smoke detection systems by combining Long Short-Term Memory (LSTM) with an attention mechanism, enabling more precise identification of multi-class smoke patterns from sensor data.
- Publication : Attention Mechanism for Improving Accuracy in Sensor-Based Multi-Class Smoke Classification Using LSTM - The 13th International Conference on ICT for Smart Society (ICISS), 2026

SMA Budi Mulia Pematangsiantar - **Pematangsiantar**

High School Diploma in Science

Organizational Experience

Arduino Study Group - **Bandung** May 2024 - Apr 2025

Member

- Participated in practical IoT learning activities at the Telkom University IoT Studio Lab, covering microcontroller programming and sensor integration.
- Contributed to group based IoT projects as part of core member responsibilities, collaborating with fellow members to design, test, and refine sensor-based systems by applying concepts learned during lab sessions.

Interium Festival - **Bandung** Apr 2024 - Jul 2024

Staff, Operational

- Coordinated event logistics as part of the Operational Division, including equipment, venue setup, and technical preparations.
- Supported onsite operations during the event to ensure smooth execution of festival activities.

GDSC (Google Developer Student Clubs) - **Bandung** Dec 2023 - Jul 2024

Member

- Actively participated in various activities focused on developing software development skills.

Skills, Achievement & Other Experience

- **Hard Skills**: Visual Studio Code, Google Colab, Figma, Excel, Database Management, Web & Mobile Development, IoT Development, and Machine Learning.
- **Soft Skills**: Strong in teamwork and collaboration, problem solving, time management, adaptability, and responsibility when working on individual, academic, and team projects.

- **Interest**: Internet of Things innovation, machine learning applications, full stack web and mobile development, and emerging technologies.
